JUST LIKE THOSE INDIANS.

If anything additional were needed to show the utter incapacity of the North American Indian to accept the beneficent features of civilization a paper presented to the Senate would answer the purpose. A number of copper ore residents of the Indian Territory offered a remonstrance against the passage of the bill providing for a delegate to the House from that Territory. Think of it! Should the bill pass some native politician could go to Washington once or twice a year and send back refreshing showers of "pub. doc." and Congressional Globes to fertilize the aboriginal mind, furnish curl papers for all the straight haired dames in the Territory and kite tails for all the boys. He could learn—and after ward impart his knowledge—of every new and pleasing beverage the basis of which is alcohol. In the use of protease language, which is of such inestimable comfort to the native tongue, he could become an electric, giving of his store unto those whose representative he would be. Numberless other blessings would be within his gift, and some day he might chance to die and have his remains escorted home by a committee of the House, in which case the half civilized residents of the Territory would enjoy the inestimably refining and ennobling spectacle of grief as rendered officially. And yet the Indians want no Delegate! Out of such wilful stupidity! Let these people be managed with a strong and resolute hand.

TWO STATES AND THEIR DEBTS.

The legislatures of Tennessee and Virginia have just been considering the debts of their respective States, the burden in both cases being heavy and the creditors clamorous. Both bodies have had competent advice from at home and abroad; both have population, resources and everything else which should encourage honest men to reduce their indebtedness or to at least make arrangements for paying interest thereon, but they have treated the matter in widely different ways. The Virginians by a fair majority, appear to be making every possible effort toward putting their affairs in businesslike shape; the Tennessee legislators, on the contrary, pattered with their business as long as they could without doing something and then quietly disbanded and hurried off home, like a lot of absconding debtors. Both States may imagine that, because the affair is their own, no one else will interest themselves in it, but the truth is that the whole of the reading public is as well informed on the subject as any of the principals are, and that the degree of honesty of each State is being as carefully determined as if States were individuals and every real or would be creditor, both these States have frequently expressed desires for more men and capital to develop their resources, and unemployed men and capital are ready, but neither labor nor money is going to trust itself where business engagements are set aside or disregarded. Tennessee's prospects have been seriously injured during the month, and every Tennesseean must bear a share of the loss and disgrace. Virginia, on the contrary, has been steadily adding to her old time reputation for honesty and honor, and what each State has done will constitute the public measure of its integrity for at least a generation to come.

SCRAPS.

"Sausage" are now the fashion in Kentucky, young men and maidens gathering to grind a neighbor's scrap pork into sausage meat.
 An Iowa man died the other day from eating inordinately of lobster salad. He is supposed to have been Muldoon, the salad man.
 Forward the medal. A certain composer, not four thousand miles from this office, set up "Sack of Ajax" for "Rock of Ages," a few weeks since—New York Express.
 "Eugenia, Eugenia, will you still insist on wearing the hair of another woman upon your head?" "Alphonse, Alphonse do you still insist on wearing the skin of another calf upon your feet?"
 Smiling young lady enters elevated railroad car; every seat full; an old gentleman gets up. "Oh don't rise," says the lovely girl, "I can just as well stand." "You can do just as you please about that, Miss," says the old gent, "but I am going to get out."

THE NEW STOCK SPECULATIONS.

The new combination method of operating stocks which Messrs. Lawrence & Co., Bankers, N. Y., have inaugurated in attracting unusual attention in financial circles, by reason of its remarkable success. B. F. Comstock, of Providence, invested nine times, and made over \$5,000 in three months, by using from \$50 to \$500 capital. By this system, orders from thousands of customers, in various sums, are pooled into one immense capital, and operated as a mighty whole, thus giving to each shareholder all the advantages of vast and shrewdest skill. Profits are divided every 30 days. Any amount from \$10 to \$75,000 can be used in Messrs. Lawrence & Co.'s combinations with equal proportionate success. \$15 will make \$75 profit in the month. \$200 will return \$1,600, or 8 per cent on the stock, and so on as the market varies. The new circular gives two unerring rules for success, and shows how any one can operate profitably. Mailed free. Stocks and bonds wanted Government bonds supplied. Apply to Lawrence & Co., Bankers, 57 Exchange Place, N. Y.

The Pennsylvania console who were married a few days ago at the age of eighty six and eighty seven, are considerably outdone by the representatives of the Jewish race in Russian Poland. The bride was a widow precisely one hundred years old; the groom was a youth of eighty eight. Indeed, the bride has a daughter, with whom she has lately lived, whose age is as great, within four years, as her stepfather's, while a great great-granddaughter is a girl of thirteen.

BAREBACK riding in circuses, at least in those of England, are the most popular of circus performances; and the best of the class, a lady who is very graceful in her acts, receive \$500 a week during her engagement. The two best male riders in England receive \$300 and \$400 a week. Clowns of the best kind receive \$50 and \$75 and they are going out of fashion.

TALK IS CHEAP—And so are fine clothing, boots, shoes, and gentlemen's and boys' fine furnishing goods, if you go to the right place to get them. This is a mighty important point, for some people who assert that they sell cheap do nothing of the kind. I do not boast when I say that I defy competition in prices in anything in my line. Besides this I have only one price. I have no preferred customers. Every body is treated alike at my establishment. My stock is the largest and most complete ever offered in any part of this State. Everything I have is new. No old, musty and out-of-date goods can be found on my shelves. I receive daily by rail and express the latest and best goods, which are obtained at first hand and sold at prices below those now prevailing in New York and Chicago. Let the people come and judge of my prices and examine my stock before going into those humbugging, Cheap John shops, in which they drum into the ear of the customer that they sell at cost and even below cost. Anybody with common sense must know that they lie. No store-keeper sells goods for the fun of the thing. I make a profit on everything I sell as every honest merchant does, and don't print foolish falsehoods in the vain hope of deceiving the public. One must make a profit to live. I particularly call attention to my full stock of fancy underwear such as is kept nowhere else in Reno. This class of goods forms one of my specialties. THE DAILY JOURNAL

Is the best daily paper published on the line of the Central Pacific Railroad, east of Sacramento, and having a general circulation throughout the State. It is especially valuable as an advertising medium.

THE DAILY AND WEEKLY JOURNAL. Here is a most convenient larger than that of any interior journal of Nevada, excepting those in the Comstock.

EDITORIAL JOTS.

The cipher dispatch investigation has been concluded in New York City. Marble, Pelton, Tilden, his Private Secretary, and a few others were examined and the testimony adduced shows them to be the most forgetful, innocent gang we have ever seen. They were not sure of anything; did not suspect any wrong; knew nothing about anything, except in one or two cases when the ingenuity of the questioners tangled the witnesses so that they made admissions not down in the programme as arranged by the conspirators. Pelton, the scapegoat, fared particularly bad, for the Committee went for him and showed him to be a consummate knave or an idiot. They have been examined and the result is satisfactory to the Republicans, who can count their increase of votes by the thousands. Tilden is too forgetful to make a decent President.

We had hoped that Victoria C. Woodhull was far enough away so that we should never hear of her again, but such is not the case. A paper comes all the way from London with a marked item. This item is an interview held with this female in which she assumes all the banties, and virtues of womanhood and thinks she has been fearfully misrepresented by the American people. She is entirely guided by the spirits and will devote the rest of her days and her purse to remodel the social world. Vic. is a free lover, and this is the remodeling she proposes to bring about. The prospects are she will fare worse in this than she did in the dozen and one schemes she tried this side of the Atlantic. One utterance in the interview gives much pleasure—she will return to America no more. England has our pity.

A newspaper man has been visiting Tullis' ranch on the Sacramento river. He says that the Chinese have carefully plowed up all the vast fields with the exception of the spot where the murdered man fell. There the spot is allowed to remain untouched and alone, as if it were cursed by the foul crime committed upon it. One can but have a feeling of horror as he contemplates the awful crime—a parallel of which is not found in the list of crimes. But Dye and Anderson are to die. Had they each a dozen lives they could not fill the penalty. Unfortunately they have but one, and that is all the law can take.

Among General Sherman's callers the other day was General Hood. He called upon the same individual a couple of times in the vicinity of Atlanta some years ago. After the last of these a squad of half a dozen rebel soldiers who had been gobbled up on the skirmish line and were being taken to the rear, were hailed by an inquisitive Union soldier with: "Say, Johnny, how many men have you got in Atlanta?" The answer came quickly: "Oh, 'bout enough for a couple more killins'."

A Mr. MURRAY, formerly of New York State recently sold at his ranch in South Africa sixty ostriches for \$37,000, and a pound of feathers for \$350 or \$35 a feather. This item suggests the feasibility of ostrich raising in Arizona, in some parts of which the climate and surroundings ought to be especially adapted to the business. It would be necessary, however to locate at a remote distance from the Southern Pacific Railroad, or the ostriches might devour the track.

Twenty-five of the forty days allotted by the organic Act of the Territory have been spent by the Lower House of the Idaho Legislature in vain attempts to organize. The Statesman says the members seem to be in a good humor and on the most pleasant terms with each other, though the result of each ballot is precisely the same as before, it was taken twelve to twelve.

OPEN LETTER.

To the Hon., the Members of the Senate and Assembly.

GENTLEMEN:—As a citizen of the State of which you are honored members, and with myself, each equally interested in its welfare, I take the liberty of addressing you a few lines upon a subject in which it seems to me every man and woman in our commonwealth should feel a deep and absorbing interest: I refer to the location of the Asylum for the insane within the borders of our own State. I had supposed, prior to the convening of your august bodies, that the necessity for such an institution had been so firmly impressed upon the minds of the people that when action came to be taken upon it there would hardly be a dissenting voice. Before the last election nearly if not all the newspapers had advocated the building of an Asylum, and we believed that it was entirely settled that one should be built, and our insane brought back to us as soon as practicable. For some reason or reasons, to me inexplicable, quite a number of you whom I supposed favorable, are now in your wisdom opposing the measure, and there is great danger that your session will close with out your having done anything with the matter, which will necessitate our farming out our insane for at least four years more, either to our present or some other contractors. With our present contractors, Drs. Langdon and Clark, I have no quarrel, nor do I wish to say one word to wound the feelings of either of these distinguished gentlemen, and am willing to admit all that their most ardent admirers claim for them and their management of our insane, and after admitting everything claimed, most earnestly advocate the removal of our insane to our own State, for the following reasons.

First.—In the course of time the connection, however desirable, with Drs. Langdon and Clark must cease. Secondly.—Each year will add to the expense of returning home our insane.

Thirdly.—It is the duty of a State to care for each individual member as a father cares for his child, and no father would send his child away who had more ample and better means for caring for him at home.

Fourthly.—Our State at some future time will necessarily have to build an Asylum; and there can be no more auspicious time than the present, when our State is entirely out of debt and large sums of money in the treasury in the building fund.

Fifthly.—In the long run, as the expression goes, I will try and show you further on it will be cheaper, although for the first year or two I presume we should have to pay nearly as much as we are now paying Drs. Langdon and Clark, but even admitting the cost to be greater it would still be a saving to the State for the money expended would again return into general circulation, whereas now when it is paid out it is gone never to return. I will give you from the reports of the different Lunatic Asylums throughout the United States the cost per week per capita, and refer you for my authority to the American Journal of Insanity, volume thirty-four, number four:

Augusta, Maine	\$1.50
Northampton, Massachusetts	\$3.70
Warren, " "	\$3.64
Sanbornton, " "	\$3.75
Providence, Rhode Island	\$7.51
Middletown, Connecticut	\$4.81
Ward, New York	\$5.87
New York City, New York	\$3.33
Hanover, Pennsylvania	\$4.47
Philadelph., " "	\$8.87
Chiloneville, Maryland	\$4.71
Raleigh, North Carolina	\$4.85
Columbia, South Carolina	\$4.81
Jackson, Mississippi	\$3.21
Jackson, Louisiana	\$2.44
Cherokee, Kentucky	\$3.46
Cleveland, Ohio	\$3.42
Dayton, " "	\$3.75
Albany, " "	\$3.74
Longview, " "	\$3.14
St. Peter, Minnesota	\$3.75

I have no means at present of ascertaining the weekly cost per capita at the California State Lunatic Asylum at Stockton and Napa, but presume that it is not much in excess of three dollars each at Stockton and probably not far from four dollars each at Napa. Drs. Langdon & Clark have expended, I should think, not less than \$15,000 for the privilege of caring for our insane for four years at \$7 per week each. Notwithstanding this expenditure for buildings, etc., they are anxious to renew their contracts from year to year and must and do make profits. When they expend \$15,000 and still make profits, is it not reasonable to believe that our State can take care of them for even less than is now paid them? Where you see, in the different Asylums that I have named, more than four or five dollars paid for each per week you will find in those institutions extraordinary care and pains taken in the management of the insane and there are hardly any of those State institutions in which you

cannot get private patients at from seven to fifty dollars per week. Now gentlemen, with a State entirely free from debt of any kind and money in the Treasury, with ninety nine out of every one hundred intelligent men throughout the State anxious that you should pass a law by which our insane may be returned to our State as soon as possible and with a proportionate increased expense to the State as the insane increase in numbers, can you reasonably afford on any pretense to let them remain abroad longer? Regarding its location as a citizen of Reno interested in its prosperity, there are many reasons that I could advance why this is the most desirable location that I know of, such as the healthfulness and geniality of the climate, the beauty and grandeur of the scenery, its easy access to all parts of the State and the comparative cheapness of obtaining building and hospital material, etc., but as a citizen of the State I say place it any where that you, in your judgment, may deem proper and where it will be for the greatest benefit to all our people. Trusting gentlemen that I have said nothing that can in any manner be deemed impertinent, allow me to subscribe myself,

Respectfully yours,
CITIZEN.

Fred Katz and Pat Henry have bought the mill, land and logs of the Crystal Peak Lumber Co. The teams, lumber yard and office fixtures are the property of Hoy & Haller. The new proprietors will extend the log valley flume from the river to the railroad track. They will commence the extension at once.

The work of ceiling and ending the Pavilion will be completed to day. The decorations will then be put up and the hall put in proper shape for the masquerade next Friday night. The hall will be in accord with the other arrangements.

Two ladies of the M. E. Church will have a sewing bee at the church this afternoon. The new carpet to be sewed and fitted.

Salaried County Officers.

Senator Powning has introduced a bill in the Senate doing away with the fee system now in vogue and paying each county officer a regular salary. The bill provides that all the moneys received shall go into the Treasury, and the salaries to be allowed by the Commissioners at their regular meetings. The following are the annual salaries put down in the bill for Washoe county officers:

Sheriff.	\$3000
Under Sheriff.	1200
Clk.	2400
Treasurer.	2400
Dist. Atty.	2400
Recorder.	2400
Assessor.	2400
Public Schools.	1000
Public Administrator.	1000
Commissioners (each).	500

The Commissioners re-empowered to appoint any other deputies that may be needed, at a salary not to exceed \$100 per month.

The officers are required to make out a quarterly report to be filed with the Treasurer. A \$5000 penalty or imprisonment from one to three years is provided in cases of failure to make the reports. The money received is to go into the General Fund.

Good Templar Grand Lodge.

State Deputy H. B. Maxon has received official notice from Gen. B. Kuznetsov, Grand Secretary of the California Grand Lodge that he will be in Reno on Tuesday, February 25th at 10 o'clock A. M. for the purpose of organizing a Grand Lodge for this State, due authority having been given by the R. W. G. T. The various lodges throughout the State are notified that they must elect one Representative for each twenty members or each fraction over ten, and one for the charter. The Representatives must be of the rank of W. C. T. W. V. T. or the Past officers. Haswell Lodge is making all due preparations for the convenience of the august body, and no doubt a pleasant and profitable time will be had and the cause of temperance strengthened. Mr. Maxon has labored hard to bring about the organization, and now he sees that his efforts are to be crowned with success.

B. W. P. & W. Minstrel.

Another large audience greeted this troupe of burnt cork artists. Sunday evening and were treated to the finest entertainment without exception which has ever visited our city. As was announced on the previous evening an entire change of programme was given, something unusual with similar organizations. The singing of the Queen City quartet, Barlow and Wilson in their witticisms, and later in the bill in their specialties, Primrose and West in their songs and dances and olog exercise, combine an entertainment of pure merit. We hope they may visit us again on their return from San Francisco where they play a long engagement at Baldwin's Theater under the management of Mr. Maguire.

District Court.

The following is yesterday's business, before Judge King:

In the case of Chalebois vs. Mayberry, a motion for a writ for papers in the Justice Court was denied and ten days given to correct appeal.

Jones vs. Mason, demurrer overruled and 5 days given to answer.

Mrs. S. E. Elliott vs. W. T. C. Elliott, set for 20th. Application for children set for hearing Feb. 15th.

The Lacombe estate matter was continued until this morning at 10 o'clock.

Ghosts.

Two frolics young Reno gentlemen took advantage of a lady's absence last Sunday evening to build a homestead ghost in her home, and placed it just where she would see it when the door was opened. A scream and a hasty retreat by an exceedingly frightened lady followed, and it was not until after several able bodied men had investigated the dummy and dissected it that the lady could be induced to enter the house. Such pranks are liable to result seriously.

The New Saloon.

Nevada does not possess a prettier billiard hall and saloon than the Opera Hall, fitted up by Crews & Illidge. The old Reno Opera House has been completely remodeled and fitted up in elegant style. To day they draw it open to the public for inspection. A general invitation is extended to all. A free push will be spread. Go around and see the new place.

Beautiful Prices.

The Masons have purchased two beautiful pieces of Davidson's and of them, a silver cigar case, to be awarded to the best sustained gentleman character, and the other a silver card receiver, for the best sustained lady character. They are now on exhibition in Davidson's window.

Brevelies.

Any kind of weather nowadays.

Huffakers district has a neat new school house nearly finished.

Ah Choney has been quite sick for a few days. Close confinement is beginning to tell on him.

The Truckee has raised five or six inches within the last day or two, owing to the recent rain.

Giger grade is in splendid order, the road between Reno and the foot of the grade is dusty all the way.

A special meeting of the Reno Fire Department will be held this evening at Chas. Koust's store, on Virginia street. A full attendance is desired.

Wadsworth had a horse race yesterday. Epperson entered Seal and Bill entered Sid. Purse \$25, distance 300 yards. Seal won by two lengths.

There is a tolerably well authenticated rumor, about that the United States Grand Jury, now in session in Carson, has indicted the Pyramid fishermen.

A private letter says that Rev. Wm. Lucas, who has been improving steadily up to quite recently, has had one of his peculiar attacks and is in a very dangerous condition.

Many thanks for an invitation and complimentary ticket to the grand ball to be given by Company F, Carson Guard, on Friday evening, February 21st. We will endeavor to attend.

The leg opera—that is the British Blondes, did not appear in Reno last night. We have had too many of those kind of shows around this way lately and are not very sorry.

The receipt of a complimentary ticket to the social dance to be given by Washoe Lodge No. 8, I. O. O. F. at Washoe, next Friday evening, is acknowledged. Tickets, including supper, \$3.

At the Catholic Fair held in Carson last Saturday night the vote for the handsomest editor stood: R. R. Parkinson 31, McCarthy 26, Mighels 18, Powning 3, Daggett 2. Parky is happy in consequence.

Not Decided Yet.

That road case between Twaddle, Owens, Frey and other Washoe Valleyites, has been on trial in the Justice Court since Saturday. Yesterday the jury, after being out some time, announced that they were unable to agree and were discharged.

The painters have begun their work on the convent building. The carpenters are putting in the windows and finishing up the outside generally.

What Edison, the inventor, failed to accomplish, Mrs. Mary E. Walton, the daughter of a New York blacksmith, has succeeded in doing. Edison was engaged for months in trying to invent something that would stop the noise on the Metropolitan elevated railway, and finally gave it up as a bad job; but Mrs. Walton has arranged a device that answers admirably, and it is not only making her famous, but it is putting money into her purse. It is simply a sand-box fastened to the rails, and is a complete success as a deadener of the rattling, clanging noise which made the road a nuisance. The principle was suggested to her by the method adopted by her father, who stopped the clangor of the blacksmith shop by setting the anvils in boxes filled with sand. Mrs. Walton experimented in her cellar with two bars of railroad iron, four feet long, laid across two barrel heads, applying the deadening sand-box, and striking with a hammer until the result sought for was obtained. The Metropolitan railway company is to pay her \$1,000 when the patent is issued, and \$1,000 after one mile of the sand box is laid. She is also to receive one-half of all royalties paid by other roads or persons for the use of the patent.

SENATOR CHRISTIANOFF'S bill for the punishment of polygamists, makes it a crime for a person to be reputed to have more than one wife, so to speak. This will settle the argument of the Deseret News with reference to "public prosecutions for bigamy." If the polygamists habitually recognize his concubine, or she him, or their children, proof of this is sufficient.

A Kentucky murderer has been sentenced to ninety-nine years on the Penitentiary, and, like a true son of the blue grass region, he declares he will not go. Considering that the State is Kentucky he probably will not.

A MOVEMENT is said to be on foot to divide Texas into two States, to be known as North and South Texas. This move if carried into effect will give the Democrats two more majorities in the Senate. The matter is kept very quiet at Washington, and Senator Bayard, who went to Texas as a member of the Senatorial escort, with the body of the late Representative Schleicher is said to have inquired into the feeling of the people relative to the matter.

ANNA DICKINSON'S new drama is a gushing, jolly old maid's play. It was written for herself, and John McCullough. In the first act she hugs him three times, in the second five times, the third is a continuous hug, and in the fourth she dies in his arms. If the play is a success, look out for a stampede of old maids for the stage.

Most of the English cathedrals still bear marks of ill usage in "the troubles." Almost the only one which did not suffer at the hands of Cromwell's army was York Minster. The famous Fairfax was in command there, and would not hear of the desecration of the pride of his native country, deeply to the regret of those who had vowed its destruction.

VALENTINES are now in order. There are ugly or pretty ones enough to satisfy any.

A CARD TO THE PUBLIC.—All those who think the rumor spread by a certain jeweler in town true, that I cannot repair watches and jewelry of all grades, will find their mistake by giving me a trial. The person who circulated the above cannot do work himself and in order not to allow his neighbor to live, says it cannot be done in Reno, thereby misleading the public and compelling them to send work to larger cities. Hence, when he has some difficult work to perform, he sends it to me to be done. I hope the public will no longer allow themselves to be misled, but will call at my store with the work other jewelers cannot do, and be convinced.
